secure claims from the United States government.
Special attention paid to collecting claims and
debts, also to patent litigation. Among the more
valuable patents issued to inventors in western
Wisconsin through this agency, are the best low
mountain, Bauger's Portable Grain Mill, Gilmore & Day's
Rock Drill, Stone Pressing Machine, and Quartz Rock
Crusher, Smith & Carter's Grain Separator and
Buckman's Automatic Arrangement for Melon and
Pumpkin. Office in Day's building, corner Main
and Milwaukee streets, Janesville, Wis.

SLOAT'S SEWING MACHINES.

Can be seen at five doors east of the Post Office, 214
Main street. These Machines have proved their
superiority over those heretofore offered to the public
from the following merits: The elasticity of the seam,
The complete adaptability to all thickness of fabric,
They are the simplest machines in use and least liable
to get out of order. They are so simple and complete
in their construction as not to require a practical hand
to use them. They are sold and repaired by
SLOAT'S SEWING MACHINES.

NOTICE!
The undersigned have formed a partnership under
the name and style of

WHITE & BRO.,
for the transaction of a General Store business at the
Monterey Stone Quarry,
which we have leased for a term of years, and where we
propose to keep constantly on hand a good supply of
Building Stone,
at prices to suit purchasers. Also we are prepared to
furnish

CUT STONE
of every description and of any required dimension.
Cutting, Paving, Rubble and Coursing Stone
of the best quality, all of which will be delivered at
our quarry, or any part of the city.
Come and examine our stone before you buy, for we
can and will make it to your interest to patronize the
MONTEREY QUARRY.
All orders from the city or country will be promptly
attended to.

Janesville, March 1st, 1861.

DAILY GAZETTE.

Lieut. Greble's Gallant Conduct at Big

Bethel.

The Philadelphia Juniper has certain
details of the part borne by Lieut. Greble
in the Big Bethel affair. It is printed ver-
batim from the rough notes of a friend of
Lieut. Greble, who kindly furnished them
for the purpose.

As soon as the confusion arising from
the mistake (the cross firing) was over Gen.
Pierce ordered the troops to advance. No
scouts were thrown out, nor were the troops
aware of the vicinity of the enemy's bat-
teries until they came within their range.

Lieut. Greble was ordered to unlimber his
gun. He advanced, firing his gun alter-
nately, until he came within two hundred
yards of the masked battery of the rebels.

Soon after the firing commenced he was
left with only his original command of 11
men, in an open road, the volunteers hav-
ing retreated before the telling fire of the
rifle cannon.

He worked his gun until he had silenced
all those of the enemy except one rifle
cannon.

The rebels made a demonstration, and
only desired permission to storm the fort,
but no general officer was seen from the
commencement of the action, and fifteen
hundred were kept lying on the ground for
an hour and forty minutes waiting for a
command.

Lieut. Greble stood the

WISCONSIN INSTITUTE FOR THE BLIND.

The annual concert and exhibition of this institution will be given at Lippin's Hall on Tuesday evening, the 25th inst. Exercises to commence at 8 o'clock precisely. An admission fee of ten cents will be charged for defraying the expenses. Tickets to be had at the office of the hall.

LETTERS FROM THE SOUTH.

A few days since one of our citizens received a letter from Mobile, which was sent after the discontinuance of the mail service in the seceded states, and was at a loss to know how it came to him. Perhaps the following statement will inform him how his letter came through, and at the same time impart some information to others who may have some curiosity about the matter:

"Persons sending letters north by the Adams Express Company will have to comply with the following requisitions: The express cannot carry letters in the United States except they be enclosed in a U. S. stamped envelope, nor in the Confederate States except in a Confederate States stamp envelope.

"Therefore, to send letters north by express, the writer should first get a United States stamped envelope, then have it marked paid by the postoffice, and the letter will go to its destination, both postage being collected in advance, and the express company then taking the letter in charge for delivery, relieves the postoffice department of all further trouble."

DEPUTY REGISTER OF DEEDS.

J. H. Balch, of this city, has been appointed deputy register of deeds, in place of H. R. Clam, who goes into service with the Light Guard, Mr. Balch has been connected with our office as book-keeper for some time past; and from a personal knowledge of him, we congratulate Mr. Bemis, the register, on securing his services in the important duties entrusted to him. Mr. Balch will be found "capable, faithful and honest" in this as in all other positions he has filled.

CHRIST CHURCH.

The hour of afternoon service in Christ Church has been changed from 2 1/2 o'clock P.M., to 6 P.M. Services now stand: Sunday school 9 o'clock; morning service 10; evening service 6.

Way is it?

Both the first and second regiments from our state have been sent to Harrisburg via Cleveland and instead of via Fort Wayne and Cincinnati. The latter is certainly the most direct, involving only one change of cars between Chicago and Harrisburg, while by the latter route there are no less than three. We learn that the war department had no hand in selecting the route, that it was left to the military authorities of the state; and inasmuch as it costs no more to send the regiments by the quicker route, it looks as though a screw was loose in this particular, as well as many others.—Wisconsin.

"Why is it?"

The quickest route is recommended outside of the state, while the longest way round within the state, via Milwaukee, was considered the best by the papers of that city?

CARELESS.

We understand that the secretary of the chamber of commerce furnishes regularly full reports of our market for transmission into the interior of the state by telegraph. Though sent, the report is seldom published this side of Winona, Minn., and in the last Madison Argus we notice it appears much lacinated, under the name and date of New York markets. Inasmuch as the report is furnished at the urgent request of many of the produce men who ship to this market, the papers to which it is sent should be enterprising enough to publish it, especially as it costs them nothing extra.—Wisconsin.

So far as the above statement may seem

to apply to Janesville, it is an entire mistake. We publish a report of the market at Milwaukee, nearly every day, and have never omitted to do so when sent to us. We are quite glad to get those reports, and publish them cheerfully.

SCHOOL PICNIC.

Four schools of the town of Janesville, and No. 1 of Fulton, propose holding a picnic on Friday, June 25th, at Pope's spring, east side of the river, in the town of Janesville. A general invitation is extended to all who may wish to attend. Exercises to commence at 10 o'clock A.M.

The Chicago Post says that the new Sherman

house, the largest and grandest hotel in Chicago, will be opened to the public on or about the first day of July next.

NOTICE.

Subscribers to the New York weekly and semi-weekly Tribune will hereafter find their papers at the postoffice.

O. J. DEARBORN.

A Good Appointment.

We are gratified in being able to state that F. F. Stevens, of this city, has been appointed assistant quartermaster in the 5th regiment. He was summoned to his post to-day, and if he does not do his duty promptly, honestly and efficiently, a host of friends have entirely mistaken his abilities and character.

Departure of the Light Guard.

We are informed that the Light Guard will leave this city for Madison at 9 o'clock this evening.

Whatever arrangements are in progress for an escort should therefore be completed promptly and announced.

For the Janesville Gazette.

Tracts for our Army and Navy.

I have just published a series of tracts for the brave men who are fighting our battles, on the use of tobacco, strong drink and profane language, vices which grow luxuriantly in armies and navies. They are short, sententious in style, and alive with martial sentiment and patriotic pictures. They will be read. They will prepare the way for productions of a more religious kind which fall dead on soldiers stupefied by strong drink and tobacco smoke. If gentlemen who make handsome donations to furnish camps with "religious reading" will send me only the crumbs which fall from their tables, I will supply our camps with tracts which will render such reading more effective, by cutting up loathsome vices which stand in the way of God and salvation. GEO. TRASK. Fitchburg, Me., June 13, 1861.

THE SECOND REGIMENT.

The Chicago Journal thus speaks of the second regiment of Wisconsin volunteers:

"The regiment comprised a splendid body of men, ten hundred and fifty in number and not a man under five feet seven inches. They are all young, stalwart, vigorous, splendid looking fellows, capable of enduring any amount of fatigue, hard work and hard fighting. There are in the regiment 250 men who have graduated from some classical institution of learning. Nearly all of them of course are in the ranks. There are 200 lumbermen, hardy, cast-iron fellows from the north, who have not probably slept in a civilized bed in half a dozen years. One company, Capt. Bouck's—is composed entirely of these sons of the forest. There is not a man in his company under five feet ten inches in height. There is another company composed entirely of foundry-men and blacksmiths, men who can carry their hands with skill to labor of any kind. The remainder of the regiment is composed of young farmers and mechanics.

There are some items of information in the above entirely new to us in this state, and the Journal must have an enterprising news collector to have obtained them all, in so short a time.

DEATH OF MR. FORT.

Mr. Fort died last evening about six o'clock, and his funeral will take place to-morrow at two p. m. from his residence in the first ward.

When the news of the sad fatality at Milton reached his former neighbors and friends in the town of Rock, the flag recently raised over the school house there was lowered to half-mast; and the same token of respect and sorrow was manifested at the private houses where flags had been displayed.

A FATHER'S ADVICE.

Among the volunteers in the Light Guard is a son-in-law of A. Lewis, of the town of Magnolia. Mr. Lewis is a patriarch of 74 years, and a patriot. After his son-in-law had enlisted and was leaving his home, the venerable old man detained him to give him a parting advice, and as he departed delivered him the following patriotic injunction, written in a legible, steady hand: "Never disgrace the stars and stripes, or let a traitor wound you in the back!"

We hope the old man may live to see his

son return, honored in having faithfully discharged his duty, and bringing to him the glad tidings that the stars and stripes are floating wherever a hostile emblem has usurped their place.

HOW WISCONSIN TREATS HER VOLUNTEERS.

The special correspondent of the New York Tribune, writing from Chambersburg, on the 14th, says:

"The last Wisconsin regiment, Col. Starkweather's, was inspected this morning by Brig. Gen. Wright and Major. The regiment made a fine display, and received from the reviewing officers high commendation for equipment, discipline, and soldierly bearing. As the Pennsylvania volunteers say of them, they are a 'bully set.' They are worthy of their state, and their state of them."

A pleasing incident occurred among them

to-day. They came from home in such large numbers that the state was not prepared to pay them their wages at the moment, in anything but currency, and here they found they could not use it, and could sell it only at a discount of 60 to 70 per cent. The state authorities, however, with wise and generous consideration for the welfare of her soldiers, immediately after their departure from here, sent a special messenger after them, to redeem their depreciated paper currency in specie. He arrived this morning to make their hearts glad. This prompt exhibition of tender regard for their welfare awakened a sentiment of profound gratitude and state pride, evinced by the kindling eye and warm expression of devotion to so kind and generous a mother.

The conduct of Wisconsin presents a

striking and painful contrast of treatment of her volunteers with that of Pennsylvania. Pennsylvania volunteers have not only been subjected to every kind of abuse, privation and hardship, through the incapacity of unscrupulous army contractors, incompetent agents and mismanagement, but they have been deprived of their pay up to this day, while some of the regiments have been performing arduous service for weeks near Baltimore and Washington. The contrast is universal dissatisfaction, and even a lamentable state of demoralization.

SATISFACTORY.

Mr. Van Slyke returned from his Samaritan mission to Hagerstown yesterday afternoon. He was commissioned by the governor to follow in the track of the 1st regiment, and if any of the soldiers sick and were left behind, to take care of them. When he reached the regiment at their destination, he found that the soldiers were in the best of health, and could not be disposed of, and he performed a service which they were grateful for, by giving gold for them. He brings the most cheering accounts of the praises lavished on the equipment, discipline and appearance of the 1st regiment. Gen. Patterson told him "that it was the best volunteer regiment he ever saw." Some of the regiments of other states occupied near our lot, seeing the care that was taken of the soldiers, looked at their own inferior equipment and the way in which they were treated, expressed the wish that they were in the service of such a magnificent state as Wisconsin.

Senator Hutchinson is commissioned by

the governor to follow the 2d regiment, and Col. Coon has instructions to leave any of his men, who may be taken sick, where they will be cared for by the Samaritan state general.—Madison Patriot.

A SHARP CRITICISM ON THE GREAT BRITISH AFFAIR.

The Boston Journal publishes the following sharp criticism on the Great British affair, from the pen of an eye-witness:

"Of the battle, sufficient to say that it was begun without any knowledge of the enemy's position, and without any plan; it was carried on without any order, each man fighting on his own hook, and it was ended fittingly by a rout and a retreat, during which, had the enemy been in condition, they might have killed our men like sheep. And more, the retreat was ordered when the Massachusetts men had already partially gained the enemy's rear, and when a little more energy and perseverance would have given us the victory. The enemy's position was masked in front by bushes and trees, and was flanked by swamps and woods, thus puzzling a man who had a few rules to fight by, and without any plan. Yet the retreat was the most unspeakably disgraceful of all. A fresh regiment arrived just before the retreat was ordered. Another was advancing, and yet in such a hurry buried did the men retreat that eight wounded men, one sick man, and two dead men were left behind to the tender mercies of the enemy, to say nothing of the stragglers. Nothing but the cowardice of a band of some eighty Virginia horsemen who pursued us, saved a little squad of thirty, all of the wounded, from being cut off. Nothing can express the sense of shame which every soldier here feels. General Pierce's name is now a synonym for imbecility, and the least the soldiers here will be satisfied with is that he be recalled or compelled to resign. Now I have told a dark and shameful story, but it is true every word of it. In bright relief to this is the conduct of many privates. So far as there was any battle every man fought pretty much on his own hook; and Massachusetts men and the Zouaves were in the front. Three of the four or five Massachusetts men who were killed all on the same edge of the trench behind which the enemy's men were standing. From this time on the cry of the men is 'give us men from the regular army, if he be only a Lieutenant to lead us—a man whose business it is to fight—and we will follow him rather than any civilian officer. Had poor Greble who was murdered—and every man who died was murdered—led us, we would have taken the place doubtless with the loss of scarce a life. A sergeant major who is here, an Italian who has studied seven years in the military schools of Italy, has held a major's commission under Garibaldi, fought with him in Europe and South America, and now carries four scars of wounds received in battle, makes the following criticism. It was a blunder to take out raw recruits at night. It was a blunder to start in the night with a force three times as large as that of the enemy. It was a blunder to start off without a train of siege pieces, when a line park was in the fort. It was a blunder to start off when the general did not know the character of the position he was to attack. I was a blunder to start without ambulances, &c., for the wounded. Everything of that kind we were compelled to plunder from the inhabitants. Much more might be said; but this is enough. Yours truly, J. HENRY JONES."

RETURNED FROM NEW YORK.

The Wisconsin says that Mr. W. D. Bacon, of Waukesha, and Col. Cutler, of Milwaukee, have returned from New York with samples of clothing for the state regiments yet to be fitted out. They have contracted in New York for overcoats for five regiments, complete suits for three regiments, and part of another regiment, shoes for three and a half regiments, and tents for two regiments, which will amount to about 170 for each regiment. They are of double duck material, and wall tents, including large ones for hospital purposes.

They have also contracted for 2,000

knapsacks, 5,000 rubber spreads, 6,000 flannel shirts, 2,000 haversacks, 6,000 yards of nice linen for pants, 1,050 caps, 3,000 haversacks, 4,000 pairs of woolen socks, and 3,000 oil cap covers. All these things will be here in ten or twelve days. The uniforms and shoes will be all made up.

COMMERCIAL.

Janesville Wholesale Market.

Reported for the Janesville Gazette, by BUMP & GRAY, GRAIN AND PRODUCE DEALERS.

JANESVILLE, June 22, 1861.

Receipts of wheat were very light to-day, only about 1200 bushels being on the market, and prices, under good milling demand, were slightly firmer; sales to mills at 92¢ and 93¢, and in one or two instances 70¢ to 80¢ for fair dry wheat. No change in corn prices. The heavy falling off in complete farmers' crops, to the bad state of money matters, farmers preferring to hold their grain for the present, rather than take anything but gold or its equivalent. We look for a very dull time until the money panic is over.

We make up prices as follows:

WHEAT—good to choice milling spring 92¢; fair to good dry shipping 90¢; stump land 25¢.

CORN—shelled dull at 12¢ 1/2; 60 lbs. ear, 12¢ 1/2; 70 lbs. 12¢.

OATS—No inquiry, we quote them at 10¢ 1/2 per bushel.

RYE—dull at 22¢ 1/2 per 60 lbs.

BARLEY—dull sale at 22¢ 1/2 per 60 lbs., common to choice.

THIMOTHY SEED—dull at 10¢ 1/2 per 40 lbs.

POTATOES—plenty and very dull at 10¢ 1/2 per bushel.

BUTTER—plenty at 10¢ 1/2 per 100 lbs. to choice.

EGGS—plenty and dull at 6¢ per dozen.

WOOL—ranges at 10¢ 1/2 for common to choice fair lean clips.

WHEAT—Green, 34¢; Dry, 31¢ 1/2.

WHEAT—spring at retail 25¢, per 100 lbs.

POULTRY—dressed chickens, 6¢ 1/2; chickens, 5¢ 1/2.

SHEEP FEET—range from 5¢ to 10¢.

Fresh Arrival

SUMMER GOODS!

JUST Received, twenty-five Gross of the best kind of FRUIT JARS.

HIGHEST Price paid for New York Drafts, Eastern bills or Gold at McCarty & Bro's, Main street, Janesville.

Horses to be Hatched.

AN ORDINANCE to regulate the drivers of horses attached to vehicles from leaving the same unsecured.

2d Mayor and Common Council of the City of Janesville.

It is hereby ordered that no driver of any vehicle in charge of any vehicle, or any horse or horses attached thereto, in any of the streets of this city, without being properly secured by means of a sufficient halter, rope or chain, or guidance of some person, shall be allowed to leave the same so as to prevent their running.

3d It is further ordered that any person who shall violate the provisions of this ordinance, and who shall be convicted thereof, jointly and severally shall be liable to a fine not exceeding twenty dollars.

4th It is further ordered that the duty of each and every driver of any vehicle, in any of the streets of this city, shall be to keep the same under control and to be held as aforesaid.

5th It is further ordered that any person who shall violate the provisions of this ordinance, and who shall be convicted thereof, jointly and severally shall be liable to a fine not exceeding twenty dollars.

6th It is further ordered that any person who shall violate the provisions of this ordinance, and who shall be convicted thereof, jointly and severally shall be liable to a fine not exceeding twenty dollars.

7th It is further ordered that any person who shall violate the provisions of this ordinance, and who shall be convicted thereof, jointly and severally shall be liable to a fine not exceeding twenty dollars.

8th It is further ordered that any person who shall violate the provisions of this ordinance, and who shall be convicted thereof, jointly and severally shall be liable to a fine not exceeding twenty dollars.

9th It is further ordered that any person who shall violate the provisions of this ordinance, and who shall be convicted thereof, jointly and severally shall be liable to a fine not exceeding twenty dollars.

10th It is further ordered that any person who shall violate the provisions of this ordinance, and who shall be convicted thereof, jointly and severally shall be liable to a fine not exceeding twenty dollars.

Cephalic Pills
CURE
Nervous Headache
All kinds of
Headache.
By the use of these pills the periodic attacks of Nervous Headache may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained. They seldom fail in removing Nausea and Headache, and they are perfectly safe in all cases. They act gently upon the bowels, removing Constipation. For Literary Men, Students, delicate females, and all persons of sedentary habits, they are valuable as a Laxative, improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system. The Cephalic Pills are the result of long investigation and carefully conducted experiments, having been used in many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the nervous system or from a deranged state of the stomach. They are entirely vegetable in their composition, and may be taken at all times with perfect safety without any change of diet, and the absence of any disagreeable taste renders it easy to administer them to children. Beware of Counterfeits! The genuine have five signatures of Henry C. Spalding on each box. Sold by Druggists and all other dealers in Medicines. A box will be sent by mail prepaid on receipt of the price, 25 cents. All orders should be addressed to HENRY C. SPALDING, 40 Cedar Street, New York.

SPALDING'S
Cephalic Pills,
HEADACHE.
The following endorsements of the value of these pills will convince all who suffer from Headache.
"I have used your Cephalic Pills, and I like them so well that I want you to send me two dollars worth more of them for my neighbors, to whom I gave a few of the first box I got from you. Send the Pills by mail, and oblige your friend, JAMES KENNEDY."
"I wish you to send me one more box of your Cephalic Pills, I have received the first box from you. Yours respectfully, MARY ANN STOKHOUSE."

Blank Books of every description, from a ten-cent book to a large ledger, at the lowest prices.
Blank Books of every description, from a ten-cent book to a large ledger, at the lowest prices.
Blank Books of every description, from a ten-cent book to a large ledger, at the lowest prices.

May's Patents.
Double and Single Acting Pumps.
For any depth of mining shafts and wells, open or drilled, to 500 feet.
No motion pipes, no packing, no bolts, no pumping rods.
Are composed of two metal cylinders and two brass valves, and wrought-iron connecting pipes.
Are operated by a wrought-iron lever, and by means of a compensating balance device, that works very easily by hand, wind mill or other power, at whatever depth, and work without noise.
They cannot freeze.
Save Repairs, Vexation and Expense!!!
These longest in use (about 2 years) need no repairs and are not perceptible wear, and possess valuable qualities unknown in any other pump.
"Blow winds and crack your cheeks! rage! blow!"
—King Lear.
The winds are found to be the Cheapest Motor in existence and highly meritorious for mechanical purposes, as pumping, sawing, turning, grinding, &c., &c.

WIND ENGINES, OR MILLS.
May's Patents.
These Engines are perfectly self-regulating and under any control, independent of their self-governing qualities.
They are SIMPLE and DURABLE.
No pulleys or expense have been spared to simplify and perfect both pumps and engines to make them UNFAILING in quality, and ECONOMICAL in price.
Every article, whether Pump or Engine, WARRANTED.
Call and examine thoroughly before buying.
Orders Filled on Short Notice!!!
These Pumps and Engines are secured by Five Patents and Fifteen Claims.
Like most valuable Patents, they are already infringed.
Infringement rigidly prosecuted, unless satisfied.

CARP'S ROTARY FORCE PUMPS.
For Mills, Factories, &c., and some of the best patented pumps, in prices from \$20 and upwards. Any person with a little mechanical skill can set them up, but competent workmen furnished when desired, at their own rates and expenses.
For Pumps, Engines, together or separate, and for rights of territory (as counties, &c.) or for price lists and bills, address or apply to
J. M. MAY, General Agent,
of the Wisconsin Manufacturing and Pump Co.,
Office in May's buildings, corner Main and Milwaukee streets, Janesville, Wis.
N. B.—Large inducements to active, thorough, competent men, to canvass and supply specific territory, in towns, counties, districts, &c.
Address as above.

Pumps, Without Engine.
In a half hour at ordinary pumping speed, I supply my stock of from forty to fifty head of cattle and horses with one of May's Patent Pumps. Well 70 feet deep, 100 feet drilled. I can find no fault with this pump, and it is in place of another kind that was very often out of repair. Being composed of forward strong pipes, and built on scientific principles, I think they must be very durable.
R. V. SCHENCK,
Brendorf, Rock County, Wis., January 20th, 1861.
I supply with water 600 sheep, some 60 head of cattle and 10 head of horses, with May's Patent Pump. Its great strength, apparent durability and above all the great amount of water it raises in a short time, and its easy working gives it with me a decided preference over any other pump in the market.
C. M. CLARK,
Whitewater, Walworth Co., Wis., Jan. 31st, 1861.
Since the 1st of October last we have been using one of May's Patent Pumps, and it gives us entire satisfaction. Our well is 125 feet deep and the pump is worked by horse power or by hand. In addition to pumping water for stock and farm purposes, we use large quantities for our Brewery.
REEVES & WADDELL,
Middleton, Dane County, Wis., Jan. 23rd, 1861.
I am using one of May's Patent Pumps in place of a well pump of another kind, that was often out of order and worked hard. Well 122 feet deep, 72 feet drilled in solid rock, and pump placed 101 feet from surface. It is most grateful and satisfactory. I am much pleased and am surprised and gratified with the large amount of water raised with little labor, 8 to 9 full strokes of the lever lifting a bucket. I deem it one of the most valuable improvements of the age for raising water.
JOHN TRACY,
Center, Rock County, Wis., Feb. 27th, 1861.

Pumps, With Engines.
I am using one of May's Patent Pumps and Self-Regulating Wind Engine (or Mill) on one of my farms near Janesville. Well 83 feet deep. Pump and mill used together, or may be separated in a moment. One to two hours daily is used for pumping water for my stock. Also, the pump works very easy by hand and animal power, after trying different kinds, that gives me entire satisfaction. Having no bolts, packing, suction pipe, or pumping rods, and being made heavy and strong, think they must be very durable.
A. HOSKINS,
Janesville, Jan. 11th, 1861.

Save Repairs, Vexation and Expense!!!
These longest in use (about 2 years) need no repairs and are not perceptible wear, and possess valuable qualities unknown in any other pump.
"Blow winds and crack your cheeks! rage! blow!"
—King Lear.
The winds are found to be the Cheapest Motor in existence and highly meritorious for mechanical purposes, as pumping, sawing, turning, grinding, &c., &c.

WIND ENGINES, OR MILLS.
May's Patents.
These Engines are perfectly self-regulating and under any control, independent of their self-governing qualities.
They are SIMPLE and DURABLE.
No pulleys or expense have been spared to simplify and perfect both pumps and engines to make them UNFAILING in quality, and ECONOMICAL in price.
Every article, whether Pump or Engine, WARRANTED.
Call and examine thoroughly before buying.
Orders Filled on Short Notice!!!
These Pumps and Engines are secured by Five Patents and Fifteen Claims.
Like most valuable Patents, they are already infringed.
Infringement rigidly prosecuted, unless satisfied.

CARP'S ROTARY FORCE PUMPS.
For Mills, Factories, &c., and some of the best patented pumps, in prices from \$20 and upwards. Any person with a little mechanical skill can set them up, but competent workmen furnished when desired, at their own rates and expenses.
For Pumps, Engines, together or separate, and for rights of territory (as counties, &c.) or for price lists and bills, address or apply to
J. M. MAY, General Agent,
of the Wisconsin Manufacturing and Pump Co.,
Office in May's buildings, corner Main and Milwaukee streets, Janesville, Wis.
N. B.—Large inducements to active, thorough, competent men, to canvass and supply specific territory, in towns, counties, districts, &c.
Address as above.

Pumps, Without Engine.
In a half hour at ordinary pumping speed, I supply my stock of from forty to fifty head of cattle and horses with one of May's Patent Pumps. Well 70 feet deep, 100 feet drilled. I can find no fault with this pump, and it is in place of another kind that was very often out of repair. Being composed of forward strong pipes, and built on scientific principles, I think they must be very durable.
R. V. SCHENCK,
Brendorf, Rock County, Wis., January 20th, 1861.
I supply with water 600 sheep, some 60 head of cattle and 10 head of horses, with May's Patent Pump. Its great strength, apparent durability and above all the great amount of water it raises in a short time, and its easy working gives it with me a decided preference over any other pump in the market.
C. M. CLARK,
Whitewater, Walworth Co., Wis., Jan. 31st, 1861.
Since the 1st of October last we have been using one of May's Patent Pumps, and it gives us entire satisfaction. Our well is 125 feet deep and the pump is worked by horse power or by hand. In addition to pumping water for stock and farm purposes, we use large quantities for our Brewery.
REEVES & WADDELL,
Middleton, Dane County, Wis., Jan. 23rd, 1861.
I am using one of May's Patent Pumps in place of a well pump of another kind, that was often out of order and worked hard. Well 122 feet deep, 72 feet drilled in solid rock, and pump placed 101 feet from surface. It is most grateful and satisfactory. I am much pleased and am surprised and gratified with the large amount of water raised with little labor, 8 to 9 full strokes of the lever lifting a bucket. I deem it one of the most valuable improvements of the age for raising water.
JOHN TRACY,
Center, Rock County, Wis., Feb. 27th, 1861.

Pumps, With Engines.
I am using one of May's Patent Pumps and Self-Regulating Wind Engine (or Mill) on one of my farms near Janesville. Well 83 feet deep. Pump and mill used together, or may be separated in a moment. One to two hours daily is used for pumping water for my stock. Also, the pump works very easy by hand and animal power, after trying different kinds, that gives me entire satisfaction. Having no bolts, packing, suction pipe, or pumping rods, and being made heavy and strong, think they must be very durable.
A. HOSKINS,
Janesville, Jan. 11th, 1861.

SPALDING'S PREPARED GLUE!
SPALDING'S PREPARED GLUE!
SPALDING'S PREPARED GLUE!
SAVE THE PIGEON!
ECONOMY! DISPATCH!
"A Stroke in Time Saves Nine."
As accidents will happen, even in well regulated families, it is very desirable to have some cheap and convenient way for repairing Furniture, Toys, Crochets, &c.
SPALDING'S PREPARED GLUE meets all such emergencies, and no household can afford to be without it. It is always ready, and up to the sticking point.
"USEFUL IN EVERY HOUSE."
N. B.—A brush accompanies each bottle. Price, 25 cents.
Address,
HENRY C. SPALDING,
No. 48 CEDAR STREET, NEW YORK.
CAUTION.
As certain unprincipled persons are attempting to palm off on the unsuspecting public, imitations of my PREPARED GLUE, I would caution all persons to examine before purchasing, and see that the full name, "SPALDING'S PREPARED GLUE," is on the wrapper. It is the outside wrapper; all others are swindling counterfeits.

Blank Books and Stationery, Journals, Note-books, and all kinds of Stationery, at the lowest prices.
Blank Books of every description, from a ten-cent book to a large ledger, at the lowest prices.
Blank Books of every description, from a ten-cent book to a large ledger, at the lowest prices.
Blank Books of every description, from a ten-cent book to a large ledger, at the lowest prices.

May's Patents.
Double and Single Acting Pumps.
For any depth of mining shafts and wells, open or drilled, to 500 feet.
No motion pipes, no packing, no bolts, no pumping rods.
Are composed of two metal cylinders and two brass valves, and wrought-iron connecting pipes.
Are operated by a wrought-iron lever, and by means of a compensating balance device, that works very easily by hand, wind mill or other power, at whatever depth, and work without noise.
They cannot freeze.
Save Repairs, Vexation and Expense!!!
These longest in use (about 2 years) need no repairs and are not perceptible wear, and possess valuable qualities unknown in any other pump.
